Delacamp Canon FX10 Conversion Kit for HP1010 Installation Instruction

Delacamp Conversion Kit

The Delacamp Canon FX10 Conversion Kit for the HP 1010 cartridge are specially designed to create a universal cartridge that will fit in both the HP 1010 and the Canon FX 10 machine

Original HP 1010

Right Drum Cap

Original HP 1010
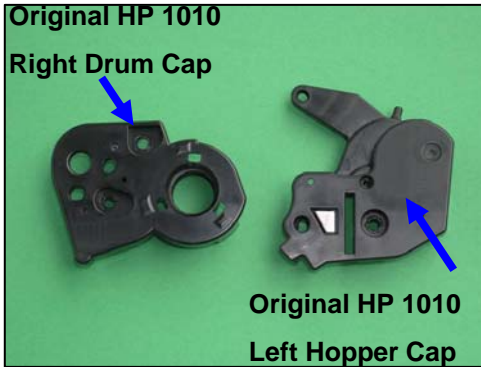

Left Hopper Cap

To convert a HP1010 (Q2612A) cartridge to a Canon FX10 cartridge, the first step is to replace the original HP1010 Right Drum End Cap and original HP1010 Left Hopper End Cap with the Delacamp Conversion Kit.

HP 1010

Canon FX 10

Flat area for sensor
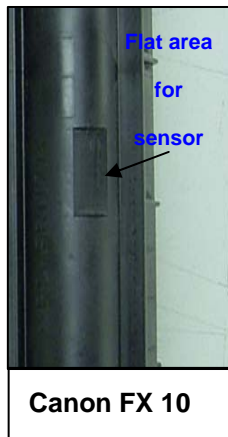

It is necessary to machine a small flat area on the underneath of the HP1010 hopper to allow the sensor to detect when toner is low. The reason for doing this is because the flat area is only present on the Canon FX 10 cartridge.   The HP1010 cartridge does not have this feature. The picture on the left shows the difference.

0.6 mm deep

16 mm

12 mm

93 mm
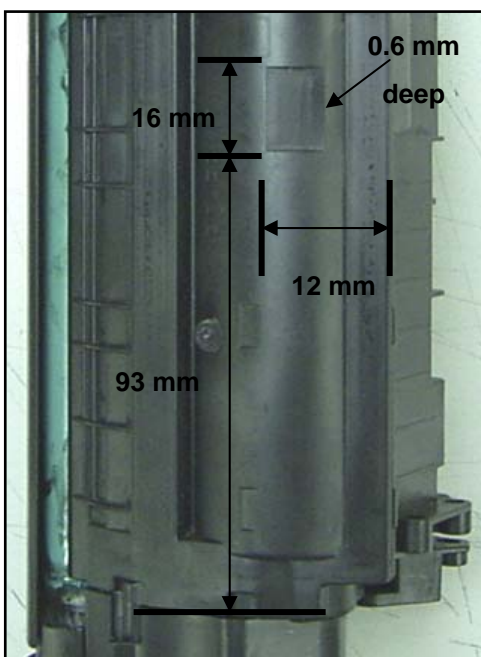

The detail position of the small flat area is show on left picture. This can be done by locating the area within a small fixture and filing off the plastic to create the flat area (0.6 mm deep).
